Room rate: \$139 single/double
Reservation deadline: February 4, 2005

Conference missions include:

Mission I: Consensus Conference

Are all stage I pressure ulcers really stage I? Are all blisters stage II ulcers? If you have pondered these questions plan now to join the NPUAP as we reexamine the current definitions of these pressure ulcers. In addition we will be discussing deep tissue injury as a form of pressure ulcers and determining where it should be placed in the nomenclature. We will be using a consensus style for this conference, so there will be ample time for you to speak and listen to others. The outcome will be important for clinicians, regulators, third party payers and researchers.

Mission II: Best Practice Conference

Health care professionals & administrators are challenged as never before with complex medical, ethical and legal issues posed by patients, their families, payers and regulators regarding pressure ulcers. This exciting, cutting edge interactive conference will bring together pressure ulcer experts to critically examine best practices in pressure ulcer assessment and treatment from a clinical, regulatory and legal perspective.
