

Program Overview

This conference will provide evidence and tools to support the healthcare practitioner in prevention and treatment of pressure ulcers across the continuum of care.

As a result of attending this symposium, the participant will be able to:

- Examine the current evidence and best practices in pressure ulcer risk assessment and treatment
- Describe current issues in pressure ulcers: staging, deep tissue injury and the legal issues related to unavoidable pressure ulcers
- Discuss the systemic implications of pressure ulcers
- Differentiate care planning for pressure ulcers in bariatric, critical, and nutritionally impaired patients
- Differentiate between incontinent dermatitis, maceration and greater buttock area pressure ulcers

Audience

Nurses, physicians, physical therapists, dietitians, podiatrists and others involved in providing quality prevention and management of pressure ulcers across all health care settings.
