

## **How Can I Join NPUAP?**

NPUAP is a group of experts in pressure ulcer prevention and management. Members of the panel of experts are elected yearly by recommendations from peers. A national presence is required in the mission areas of education, research and/or public policy.

Corporate provider groups and professional organizations are invited to join for an annual fee. Payment of the membership fees, invites a representative to attend panel meetings.

Industry groups are the mainstay of financial support of the ongoing work of NPUAP. Corporate support allows attendance and participation in panel meetings and reduced fees for exhibits at NPUAP Meetings.

Contact the NPUAP national office for more information.
